

*Are you interested in becoming a doctor or scientist?*

*Join the new St. Vincent High School Career Club D.O.C.S.!*

**D**iscovering **O**pportunities and **C**areers for **S**tudents in Medicine

**D.O.C.S.** is a new SVHS club created for students interested in pursuing an education and careers in the field of science or medicine. The D.O.C.S. Club will conduct informational interviews and field trips each month to meet medical professionals (outside of school hours) in order to gain insight into the various fields of medicine. For those interested in pursuing a career in pre-med, nursing or biomedical science, we hope that this new club will help us learn more about these fields while we are still in high school so that we can select and/or apply for the most beneficial courses, internships, volunteer opportunities and colleges to help achieve our goal of becoming a medical professional.

Informational meetings with “**Mentor Physicians**” will begin in May and continue through the 2009/2010 school year. Participating physicians include a Pediatrician, a Reconstructive Surgeon, a Family Practitioner, a Registered Nurse, a Physician’s Assistant, an Obstetrician/Gynecologist and other outstanding medical professionals who are interested in sharing their knowledge and experience with our group.
